

CONNECTED EQUIPMENT GUARANTEE:

SUPCO will replace or pay to repair, up to \$500 per occurrence with a lifetime cap of \$10,000, any electromechanical or motor-driven appliance that is damaged by a voltage surge passing through the surge protector to the equipment. The SUPCO Surge Protector must show signs of surge damage or be operating outside of design specifications. In order to be eligible for this connected equipment coverage the surge protector must be installed in the immediate vicinity of the equipment being protected. For instance, an A/C compressor unit must be protected inside the compressor box or no further away than the disconnect. The inside air handler may be protected at the nearest panel box but inside the same building.

*\$1000 per occurrence for the SCMPPLUS

Claim Procedure:

If you want to make a claim you must first contact customer service at 1-800-333-9125 for a return authorization number to return the defective surge protector. You must notify SUPCO at this time if you believe you have a connected equipment claim. SUPCO will send you an information packet to be completed and returned within 20 days. SUPCO reserves the right to inspect the damaged equipment. Once SUPCO has determined that you are entitled to compensation for your claim, SUPCO will at its option, pay the present fair market value of the damaged equipment, send you replacement equipment or pay for the cost of the repair.

LIMITED LIFETIME WARRANTY

LIMITED LIFETIME WARRANTY FOR STANDARD INDOOR RESIDENTIAL AND COMMERCIAL SURGE PROTECTORS

Thank you for choosing a SUPCO surge protection product to protect your equipment. You will be pleased to know that SUPCO surge arrestors will provide you with years of security and protection.

LIMITED LIFETIME WARRANTY AGAINST MANUFACTURING DEFECTS

SUPCO warrants these surge arrestors to be free of all defects in workmanship or material for the lifetime of the original purchaser, and that SUPCO will repair or replace any defective unit.

SUPCO surge arrestors are designed to dissipate the damaging effects of momentary voltage spikes or other transient power surges including impulses from lightning. They are not warranted against direct lightning, continuous over voltage, over current nor dropped neutrals.

First a FLASH,
then THUNDER,
then BANG!

Your air conditioner
just Blew Up!

Lightning is the most obvious source of a power surge, but not the only culprit. Utility Events, Cycling of Air Conditioners, Generators, Motors and Appliances can also produce damaging surges. Protect your equipment with SUPCO's Surge Arrestors.

Defend Your Investment

Each year, the average home or business experiences more than 300 potentially damaging surges. Today's Heating, Ventilating and Air Conditioning (HVAC) Equipment is becoming more sensitive to this unavoidable environmental condition. Next to the cost of a home and car, this equipment is a homeowner's most expensive possession.

Yet, there is no protection for it!

HVAC Installation Points

For Whole House Protection add the DTK-WH5 to your SCM or SCMPPLUS
