

VSI Infinite Switches

SUPCO VSI Infinite switch kits have a 1/8" square shaft with universal mounting kit & universal knob adapter kit. The combination or break off shaft, universal mounting, combined with knob adapters, make these kits a must for truck stock.

When replacing a CSI (current sensitive) switch with a VSI (voltage sensitive) switch, there is more accurate control of on time in the lower range ramping up quickly to high. All switches rotate 360°, the rotation is the direction the shaft is turned to reach high. See chart for knob options. All switches have P/N, Rotation, type, printed on base.

Standard Infinite Kits

Standard kits are indexed at Low, Off, and High. On high the switch has continuous 100% output.

SUPCO Number	Uni-Line Number	VOLTAGE	% @ LOW	KNOB KIT	ROTATION
ES5500202	5500-202	240 V	5%	NONE	CW
ES5500203	5500-203	240 V	5%	BLACK	CW
ES5500204	5500-204	240 V	5%	WHITE	CW
ES5500225	5500-225	240 V	5%	NONE	CCW

Push to Turn Kits

Push to turn kits indexed Low and High positions with locking safety feature at Off.

Switch shaft must be pushed in to unlock the switch before rotation.

SUPCO Number	Uni-Line Number	VOLTAGE	% @ LOW	KNOB KIT	ROTATION
ES5500200	5500-200	240 V	5%	None	CW
ES5500206	5500-206	240 V	5%	Black	CW
ES5500207	5500-207	240 V	5%	White	CW
ES5500299	5500-299	240 V	5%	None	CCW
